**Addiction: A self destructive behaviour that you are currently unable to stop!**

The Answer Model is an exciting new model of addiction and addictive behaviour that has been developed by Todd Ritchey and John Montgomery, Ph.D.

The curative system is extraordinarily powerful in treating a wide range of addictive behaviours and neuroses, as well as drug addiction and alcoholism.

The model is based on cutting-edge research in psychology and neuroscience, and uses biochemical addiction to merge western neuroscience and eastern spirituality, creating not only a therapeutic and healing system, but also a new method of attaining spiritual enlightenment.

**Testimonial:**

"I can genuinely say this workshop changed me. It helped me to take off my mask and set me on a journey of getting to know, and love, the person underneath. This workshop is truly amazing!"  
Wendy P., Kamloops, BC
